Version	Date	Author	Description
1.0	August 2026	Victor Makhuba	Initial version

1. Introduction

Purpose

The purpose of this Business Requirements Document (BRD) is to define the business requirements for the School Reporter project. The document provides a shared understanding of the business objectives, stakeholder needs and high-level functional requirements that will guide the development of the solution.

Scope

The School Reporter platform will enable schools to digitise learner administration by providing functionality for:

- Teacher authentication
- Learner management
- Attendance management
- Homework management
- Behaviour tracking
- School announcements
- Reporting
- User administration

2. Business Problem

Many schools rely on manual processes to manage learner information and communicate with parents. This leads to:

- Administrative inefficiencies
- Delayed communication
- Paper-based records
- Data inaccuracies
- Increased workload

3. Business Objectives

The project aims to:

- Improve communication
- Reduce paperwork
- Improve learner record accuracy
- Increase operational efficiency
- Improve reporting
- Support digital transformation

4. Stakeholders

Stakeholder	Role
School Principal	Project Sponsor
Teachers	Primary Users
School Administrators	System Administrators
Parents	Information Recipients
Business Analyst	Requirements Gathering
Development Team	System Development

5. Business Requirements

These are the **high-level business requirements**. Don't go into field-level detail here.

ID	Requirement	Priority
BR-001	Teachers shall securely log into the system.	High
BR-002	Teachers shall manage learner information.	High
BR-003	Teachers shall capture attendance.	High
BR-004	Teachers shall assign homework.	High
BR-005	Teachers shall record learner behaviour.	High
BR-006	Parents shall receive school notifications.	High
BR-007	The system shall generate reports.	Medium
BR-008	Administrators shall manage users.	Medium
BR-009	The system shall protect learner information.	High

6. Functional Requirements

Summarise the main functional areas:

- User Authentication
- Learner Management
- Attendance
- Homework
- Behaviour
- Notifications
- Reporting
- Administration

No detailed requirements—they're already in your SRS.

7. Non-Functional Requirements

Requirement	Description
Performance	Response time under 3 seconds
Availability	99% uptime
Security	Secure authentication and role-based access
Reliability	Data saved without loss
Scalability	Support multiple schools
Usability	Easy-to-use interface

8. Assumptions

- Teachers have internet access.
- Schools have suitable devices.
- Users receive training.
- Management supports implementation.

9. Constraints

- Budget
- Time
- POPIA compliance
- Internet availability

10. Risks

Risk	Mitigation
User resistance	Training
Scope creep	Change control
Data privacy	Security controls
Technical issues	Testing

11. Success Criteria

The project will be considered successful if:

- Teachers adopt the system.
- Attendance is captured digitally.
- Homework is managed electronically.
- Parents receive timely updates.
- Reports support school decision-making.
- Stakeholders approve the solution.

12. Business Process Overview

Reference your existing process maps instead of recreating them:

- Teacher Login Process
- Attendance Process
- Homework Process
- Behaviour Management Process

This demonstrates traceability across your portfolio.

13. Requirements Traceability

Business Requirement	User Story	Test Case
BR-001	US-001, US-002	TC-001, TC-002
BR-002	US-004	TC-005
BR-003	US-006	TC-008
BR-004	US-008	TC-010
BR-005	US-010	TC-012
BR-006	US-012	TC-014
BR-007	US-014	TC-016
BR-008	US-016	TC-017
BR-009	US-018	TC-018

14. Approval

Role	Name	Signature	Date
Project Sponsor	_____	_____	_____
Business Analyst	Victor Makhuba	_____	_____
Project Manager	Victor Makhuba	_____	_____
